**'How Do Self Driving Cars Make  
Decisions NVIDIA Blog**

May 1st, 2020 - Self driving cars see the world using sensors But how do they make sense of all that data The key is perception the industry's term for the ability while driving to process and identify road data ? from street signs to pedestrians to surrounding traffic''***These are the best Artificial Intelligence panies in***

---

---

May 1st, 2020 - It invests in Artificial Intelligence and its Azure which is a cloud putting service is home to AI driven tools in robotics language medicine medical imaging etc Recently Microsoft invested 1 billion in OpenAI with the aim to produce AGI Artificial General Intelligence which is capable of doing anything that human intelligence can'

**'NVIDIA Baidu Announce Partnership to Accelerate AI**

---

---

April 26th, 2020 - NVIDIA and Baidu today announced a broad partnership to bring the world's leading artificial intelligence technology to cloud computing, self-driving vehicles, and AI home assistants. Speaking in the keynote at Baidu's AI developer conference in Beijing, Baidu president and COO Qi Lu described his company's plans to work with NVIDIA to "Cloud Computing and Artificial Intelligence How Cloud

April 29th, 2020 - While artificial

---

---

intelligence A I has struggled to gain footholds in other niches it is finding its place in the world of cloud puting a sort of revolution within the revolution that could rapidly change the face of businesses using cloud puting solutions over the next few years'

'Artificial intelligence  
May 4th, 2020 - Artificial  
intelligence was founded as an  
academic discipline in 1955 due to a  
rise in cloud puting infrastructure

---

---

and to an increase in research tools and datasets A self driving car system may use a neural network to determine which parts of the picture seem to match previous training images of pedestrians'

'What is Artificial Intelligence AI  
May 4th, 2020 - AI Artificial  
Intelligence AI pronounced AYE EYE or  
artificial intelligence is the  
simulation of human intelligence  
processes by machines especially puter  
systems These processes include

---

---

learning the acquisition of  
information and rules for using the  
information reasoning using the rules  
to reach approximate or definite'

**'Artificial Intelligence Chipset  
Market Size Share**

April 22nd, 2020 - The global  
artificial intelligence chipset market  
size was valued at USD 7.4 billion in  
2018 and is anticipated to witness a  
CAGR of 33.6% from 2019 to 2025.

Increasing penetration of e-commerce and  
social media leads to a huge growth in
