lightning weather
underground

June 3rd, 2020 - the national weather service advises that when you hear thunder or see lightning to quickly move indoors or into a hard topped vehicle and remain there until well after the storm has passed'

'what makes thunder and lightning weather science

May 5th, 2020 - when the electrical charge gets too strong lightning strikes this evens out the charge and releases the pressure the bolt of lightning heats up the air right around the bolt to be hotter than the surface of the sun the hottest thing on earth

this super hot air expands because hot air takes up more space than cold air and pushes hard against the colder air next to it

thunder and lightning
May 24th, 2020 - how do you know how far away a storm is find out in this fun video for kids find out more about thunder and lightning at bit ly 1ggcoyp

thunder and lightning weather past present and future
May 15th, 2020 - in thunder and lightning guggenheim fellow and pulitzer nominee lauren redniss draws a new account of the weather she has travelled from the frozen archipelagos of the arctic ocean to the absolute desert of ataa chile to show us the elements at their most extreme

lauren redniss s thunder amp lightning reinvents literary
March 25th, 2019 - redniss s latest work thunder amp lightning weather past present future expands her biographical impulse to encompass what reads like the story of the whole world we can estimate and predict
