---

---

*May 31st, 2020 - L'Aquila is a city in central Italy with a population of around 70,000 people. The area itself is prone to earthquakes due to the major fault line that runs north-south along the Apennine mountain range as well as an east-west fault line across the centre of Italy. The fault lines themselves are close to the destructive plate margin between the Eurasian and African plates.*
