IFT 6269 Probabilistic Graphical Models Fall 2017

December 21st, 2019 - IFT 6269
Probabilistic Graphical Models Fall 2017
Description This course provides a unifying introduction to statistical modeling of multidimensional data

through the framework of probabilistic graphical models together with their associated learning and inference algorithms"

Probabilistic Graphical Models The MIT Press

December 27th, 2019 - A general framework for constructing and using probabilistic models of complex systems that would enable a computer to use available information for making decisions Most tasks require a person or an automated system to reason?to reach conclusions based on available information The framework of probabilistic graphical models'
