Callable and Future in Java GeeksforGeeks

**May 3rd, 2020 - Observe that Callable and Future do two different things
? Callable is similar to Runnable in that it encapsulates a task that is**

meant to run on another thread whereas a Future is used to store a result obtained from a different thread In fact the Future can be made to work with Runnable as well which is something that will be clear'

'Parallel Programming in Java Coursera

April 23rd, 2020 - ? Java 7 and Java 8 have introduced new frameworks for

parallelism ForkJoin Stream that have significantly changed the paradigms for parallel programming since the early days of Java ? Each of the four modules in the course includes an assigned mini project that will provide you with the necessary hands on experience to use the concepts learned in the course on your own after the'
