'infrared spectroscopy by barbara h stuart

May 16th, 2020 - a great introduction into the experimental method of ir this book is suited for people just starting out the basics are covered well without the book being cloying and afterwards it s lovely to read about the various ir methods spectral analysis and so on a multitude of spectra of various molecules plexes are shown and explained

'infrared spectroscopy fundamentals and applications

May 31st, 2020 - infrared spectroscopy fundamentals and applications infrared spectroscopy provides an introduction to those needing to use infrared spectroscopy for the first time explaining the fundamental aspects of this technique how to obtain a spectrum and how to analyse infrared data covering a wide range of applications'

'module 1 fundamentals of spectroscopy

June 1st, 2020 - purpose this module is designed to introduce the basic concepts of spectroscopy and to provide a survey of several of the most mon types of spectroscopic measurement you will conduct the following measurements uv vis ultraviolet visible spectroscopy of electronic states'
