forbes

**May 25th, 2020 -
both deep**

learning and
reinforcement
learning are
machine learning
functions which
in turn are part
of a wider set
of artificial
intelligence
tools what makes
deep learning
and
reinforcement '
'reconciling
deep learning
with symbolic
artificial

May 21st, 2020 -

introduction
deep learning is
an approach to
machine learning
that involves
training neural
networks with
many feed
forward layers
on large
datasets 1 2
over the past
ten years it has
bee established
as one of the
most impactful
research areas
within

artificial
intelligence ai'

'artificial
intelligence
May 28th, 2020 -
in puter science
artificial
intelligence ai
sometimes called
machine
intelligence is
intelligence
demonstrated by
machines in
contrast to the
natural
intelligence

displayed by
humans and
animals leading
ai textbooks
define the field
as the study of
intelligent
agents any
device that
perceives its
environment and
takes actions
that maximize
its chance of
successfully
achieving
its ' 'artificial
intelligence vs

machine learning vs deep

May 25th, 2020 -
deep learning is
the form of
artificial
intelligence
that is even more
in depth than
that this
technology uses
deep neural
networks to
learn and
retrieve
patterns from
vast amounts of
data although

artificial
intelligence
machine learning
and deep
learning aren't
the same things
they're part of
the same family'

**'artificial
intelligence and
machine learning
policy paper**

May 27th, 2020 -
artificial
intelligence is
a technology
that is already
impacting how

users interact with and are affected by the internet in the near future its impact is likely to only continue to grow ai has the potential to vastly change the way that humans interact not only with the digital world but also with each other through their work and through

other

socioeconomic

institutions

for'

'artificial

intelligence and

machine learning

department

May 16th, 2020 -

artificial

intelligence ai

researchers now

predict that

puters will be

able to perform

tasks that were

once considered

the prerogative

of human beings
they include
tasks such as
driving trucks
translating
languages
writing high
school essays
creating art
analyzing
forensic
evidence and
even work as a
surgeon ' '
artificial
intelligence
