May 25th, 2020 - no this is a mon plan in chess really a lot of plans in chess are concerned with first forcing the enemy to weaken their camp with a pawn
move every pawn move creates a permanent weakness as it can t be taken back and then the plan is often to go about exploiting the weakness or creating
another one for example in endings there s this thing called the principle of two weaknesses''**logical chess move by move every move explained new**
