V 700 Brochure 9 13 18

December 24th, 2019 - V 700 Series UV Visible NIR spectrophotometers provides an excellent optical system with wide wavelength range for a diverse array of applications The V 700 Series comprises five distinct models covering the entire spectrum from the far UV 187 nm to the near IR 3200 nm The compact optical design of the V 700 Series of UV Visible"Cryostat For Spectrophotometer USP 203 Series UNISOKU Co

December 15th, 2019 - Cryostat For Spectrophotometer USP 203 Series PDF Published Papers Please contact Japan Head Office if you need more information Temperature range from 80°C to 100°C Light weight and compact footprint Vacuum pumps are not required A cryostat to be placed inside a sample compartment of commercially available spectrophotometers'

'JASCO Asia Portal UV Visible NIR V Series

December 15th, 2019 - With more than forty years of experience in the design of spectrophotometers JASCO is pleased to introduce a new line of UV Vis NIR instruments The V 700 series consists of five distinct models designed to meet the capabilities required by thousands of customers worldwide"**Analytical Lab Science Co Ltd**

December 23rd, 2019 - The LC 4000 Series is the latest in a long history of innovative HPLC systems developed by JASCO reaching all the way back to the start of commercial HPLC in the early 1970s The LC 4000 series HPLC provides key separation platforms at 50MPa 70MPa and 130MPa which correspond to conventional HPLC the increasingly popular Rapid Analysis RHPLC and sub 2um UHPLC respectively'

'Metrotech Services Ltd Jasco

November 19th, 2019 - Model V 530 The V 530 is the basic most economic general purpose UV VIS spectrophotometer of the V series Equipped with a double beam spectrophotometer single monochromator and silicon photodiode detector the V 530 can perform measurements in the 1100 nm to 190 nm wavelength range at a fixed bandpass of 2 nm'

'FOURIER TRANSFORM INFRARED SPECTROMETER model FT IR 600 series

November 19th, 2019 - Model FT IR 600 series Fourier Transform Infrared Spectrometer model FT IR 600 series The new FT IR 600 series is the top of the line in research grade FT IR's However JASCO's three relatively inexpensive vacuum models are also well suited for mid infrared applications"UV Visible NIR spectrophotometers from JASCO USA

December 25th, 2019 - The latest generation of UV visible NIR spectrophotometers just arrived When we put the latest V 600 series of UV visible NIR instruments onto the drawing board we made sure we listened to the needs of our customers The result is the most comprehensive range of applications run on the most sophisticated optical

benches'
