## 'how extracorporeal life support ecmo works

May 30th, 2020 - although we're far from the development of a Darth Vader-esque life support system, ECMO or extracorporeal membrane oxygenation has a long way in recent years. Although initially a means of therapy used to help newborn babies, an increasing number of adults are receiving ECMO, and ECMO centers are popping up all over the world."

## **extracorporeal life support organization ecmo and ecls**

May 31st, 2020 - the extracorporeal life support organization (ECLS) is an international non-profit consortium of health care institutions who are dedicated to the development and evaluation of novel therapies for support of failing organ systems. Crucial to the organization's mission is the promotion of a broad multidisciplinary collaboration."
