considered and
elaborated by the Legal
Committee from 1972 to
1979 The Agreement was
adopted by the General
Assembly in 1979 in
resolution 34 68'

'7 Moon Proceedings
Session 5 A

April 21st, 2020 -
renewed focus of at
least US government

space activities on the Moon and other celestial bodies such as Mars enjoying the same legal regime as the Moon whether one takes the Outer Space Treaty as solely relevant or takes the Moon Agreement into account as well and the specific role private enterprise was to play in that context'

'Space law

April 12th, 2020 - Space law is the body of law governing space related activities encompassing both international and domestic agreements rules and principles Parameters of space law include space exploration liability for damage weapons use rescue efforts environmental

*preservation information
sharing new technologies
and ethics'*

**'What is the Moon Treaty
and is it still useful**

April 21st, 2020 - The
Moon Agreement or Moon
Treaty formally the
Agreement Governing the
Activities of States on
the Moon and Other
Celestial Bodies is the
last of five
international treaties
regarding space
activities that were
negotiated in the late
1960s and early 1970s
The intent of the Moon
Treaty was to offer more
specific regulation of
the activities''**UNTC**

United Nations

**April 18th, 2020 - In
some specific instances
the UN Secretariat has
the discretion not to**

publish certain elements of a treaty in the UNTS. In contrast to the Limited Publication Policy when the full text of an agreement may not be reproduced in the UNTS in its entirety the objective of applying the partial publication method to a particular situation is to speed up the publishing effort by e.g. excluding'

'Moon Treaty

May 1st, 2020 - The Agreement Governing the Activities of States on the Moon and Other Celestial Bodies better known as the Moon Treaty or Moon Agreement is a multilateral treaty that turns jurisdiction of all celestial bodies including the orbits around such bodies over to the participant

countries Thus all activities would conform to international law including the United Nations

Charter' 'Agreement governing the Activities of States on the Moon
