June 6th, 2020 -

bloodletting or blood
letting is the withdrawal
of blood from a patient to
prevent or cure illness
and disease bloodletting
whether by a physician or
by leeches was based on

an ancient system of medicine in which blood and other bodily fluids were regarded as humours that had to remain in proper balance to maintain health it is claimed to have been the most mon medical

practice"**purpura causes diagnosis treatment and pictures**

June 6th, 2020 -

purpura occurs when small blood vessels burst causing blood to pool under the skin this

can create purple spots on the skin that range in size from small dots to large patches'

'finger prick test could be a lifesaver to stroke patients

June 3rd, 2020 - new finger prick test could be a lifesaver to stroke patients and dramatically cuts diagnosis time to under five minutes caused by bleeds in the brain as a result of a burst blood
