baby zebra born with spots instead of stripes

April 26th, 2020 - but one baby zebra in kenya has spots instead wildlife photographer frank liu captured pictures of the unique baby zebra in masai mara national reserve in southwestern kenya the zebra s lack of stripes is the striking result of an incredibly rare genetic mutation it s so rare that frank says the zebra may be the first of his kind in'

'10 animals with beautiful

spots wow amazing
May 28th, 2020 - just as
hunters use camouflage
jackets some animals have
spots which they use to
blend into their
environment although
household animals inherited
these features from their
ancestors some just need it
to survive in the wild here
are some animals that
possess beautiful spots 1
dalmatian although nobody
can tell how dalmatians
acquired their spots they
are still one of the most
popular'
