May 27th, 2020 - *psychedelic music sometimes called psychedelia is a wide range of popular music styles and genres influenced by 1960s*

psychedelia a subculture of people who used psychedelic drugs such as lsd psilocybin mushrooms mescaline and dmt to experience visual and auditory hallucinations synesthesia and altered states of consciousness psychedelic music may also aim to enhance the experience of'

'jazz tone step by step how do i get the jazz sound

May 27th, 2020 - step by step approach getting the jazz sound that s how i proceed when playing with instruments i m not 100 satisfied with when attempting to get the jazz sound with my jazz guitar tone 1 set the guitar and amp to reasonable settings make your guitar amp as flat as possible eq wise with no or little effects'

'how to turn any song into a jazz song the jazz piano site

May 27th, 2020 - using reharmonization and the other aforementioned techniques will allow you to turn any song into a jazz song and give you differing levels of jazziness but to truly hear how and why using the above techniques makes a song sound jazzy make sure you watch the below video in it i take a famous pop song let it be and jazz it up'

'saxophone tone amp sound taming the saxophone

May 23rd, 2020 - obviously we often use the words tone amp sound interchangeably but when you are learning an instrument like the saxophone it s very useful to consider them separately tone you can

think of this as the raw unprocessed sound of your saxophone sound
this is the end result after you have used your technique as a
musician to manipulate the tone into something that can be more
personal'

'what makes jazz different from other music
May 25th, 2020 - what makes jazz different from other music jazz is
a purely american invention it is america s only native art form
created by african americans whose experiences of struggle impacted
various directions musically and socially artists such as and are
american icons and their contributions to the culture are
timeless' '
